Transfer of Registration

7. Teams can substitute Team Members up until the 28 February 2021 (subject to meeting the minimum age requirements). After this date, we reserve the right to refuse any Team changes if, in our opinion, the proposed new Team Member does not have enough time to prepare for the Program. We may deem the Team Challenge to be unsafe due to circumstances out of our control such as (but not limited to) heavy rain, gale force winds, bushfires, flooding, lightning, electrical storms, or if for any reason conditions are such that our insurance would be void or voided for the Team Challenge.
12. We may choose a suitable, alternate venue and/or route to hold the Team Challenge. The route or location may not be the same as originally proposed by us if it is deemed unsafe, but reasonable endeavours to find a suitable substitute will be made. In the event that the Team Challenge is re-routed or shortened, no refund of Registration Fees will be made.

32. The *Competition and Consumer Act 2010* (Cth) and *Australian Consumer Law and Fair Trading Act 2012* (Vic) imply certain guarantees into contracts for the supply of certain goods and services, for example, that goods or services will be rendered with due care and skill, that goods or services supplied will be reasonably fit for purpose and that goods or services will be delivered in a timely manner (**Statutory Guarantees**).

Potential Course Changes and Timings

34. The trail will include several road crossings and short sections along roads to which all normal road rules apply. These roads will not be closed for the Team Challenge. Road crossing times have been calculated based on teams completing the Team Challenge at a rate of 4-7km/hr for 60km and 100km teams and between 3-10km/hr for 30km teams. If teams are faster than this then they may come across road crossings without road marshals and need to take extreme care.

Wellness Stop times have been calculated based on teams completing the Team Challenge at a rate of 4-7km/hr for 60km and 100km teams and between 3-10km/hr for 30km teams. If Teams are faster, there may be reduced resources available and not all functionality may be available.
36.
